

Please Do Not allow the Consumer Banking Association (CBA) to weaken Indiana's telephone privacy laws. While I choose to do business with a couple of the companies on the list, I DO NOT want them to interrupt my personal life with telephone calls. They send enough "junk-mail" as it is. At least I have the option to review that at my leisure, and discard/recycle it as necessary. Telephone solicitations from them would be a great inconvenience and interruption in my family's personal life.
